SOLID COLORED POLYMER CONCRETE WALL SYSTEM

**PRIME ARMOR 3600** is a fast setting spray and trowel applied polymer mortar system, top-coated with a gloss or matte finish. Designed for application over concrete or block walls, 3600 will provide an easily cleaned and maintained surface. The installed thickness of Prime Armor will cover many surface imperfections and level struck joints and help mask uneven block placement.

## COMMON APPLICATIONS

Wall areas where beauty, cleanability and masking of surface imperfections are all critical performance characteristics. Typically installed over clean, prepared concrete and block. Specific applications include, but are not limited to: healthcare, institutional, animal care and correctional facilities, research laboratories and vivariums.
