PRIME FLEX

SOFT FLOOR FOR DEMANDING ENVIRONMENTS

PRIME FLEX 4612 is a unique blend of high solids flexible polymers and colored EPDM particles. This system provides a soft walking surface that can handle high impact, abrasion and point loading. Combined with our proprietary anti-MRSA topcoat it will provide critical areas with a stain and microbe resistant solution that is easy on feet, hooves and paws.

COMMON APPLICATIONS

This Flex System is designed to go over almost any structural substrate. It is applied to floors in areas such as hospitals, animal care facilities, corridors and any area that may benefit from a soft but durable floor system.

COMPONENTS

103 / 322 / 650 / 325 / 504 / or 650

LEED MATRIX [INC 2009]

	YES	NO

OPTIONS

Cove Bases: Available

Colors: see back panel

	A	B	C
Texture	✓	✓	✓

Prime Coat offers 3 categories of finish Textures. Texture A is our smoothest finish. Texture B is our mid-level slip resistant finish and Texture C is our highest level slip resistant finish. Custom textures can be engineered to meet specific design requirements. A mock up is recommended as the best way to ensure customer satisfaction.

Antimicrobial: Available

Waterproofing Membrane: Included

Topcoats:

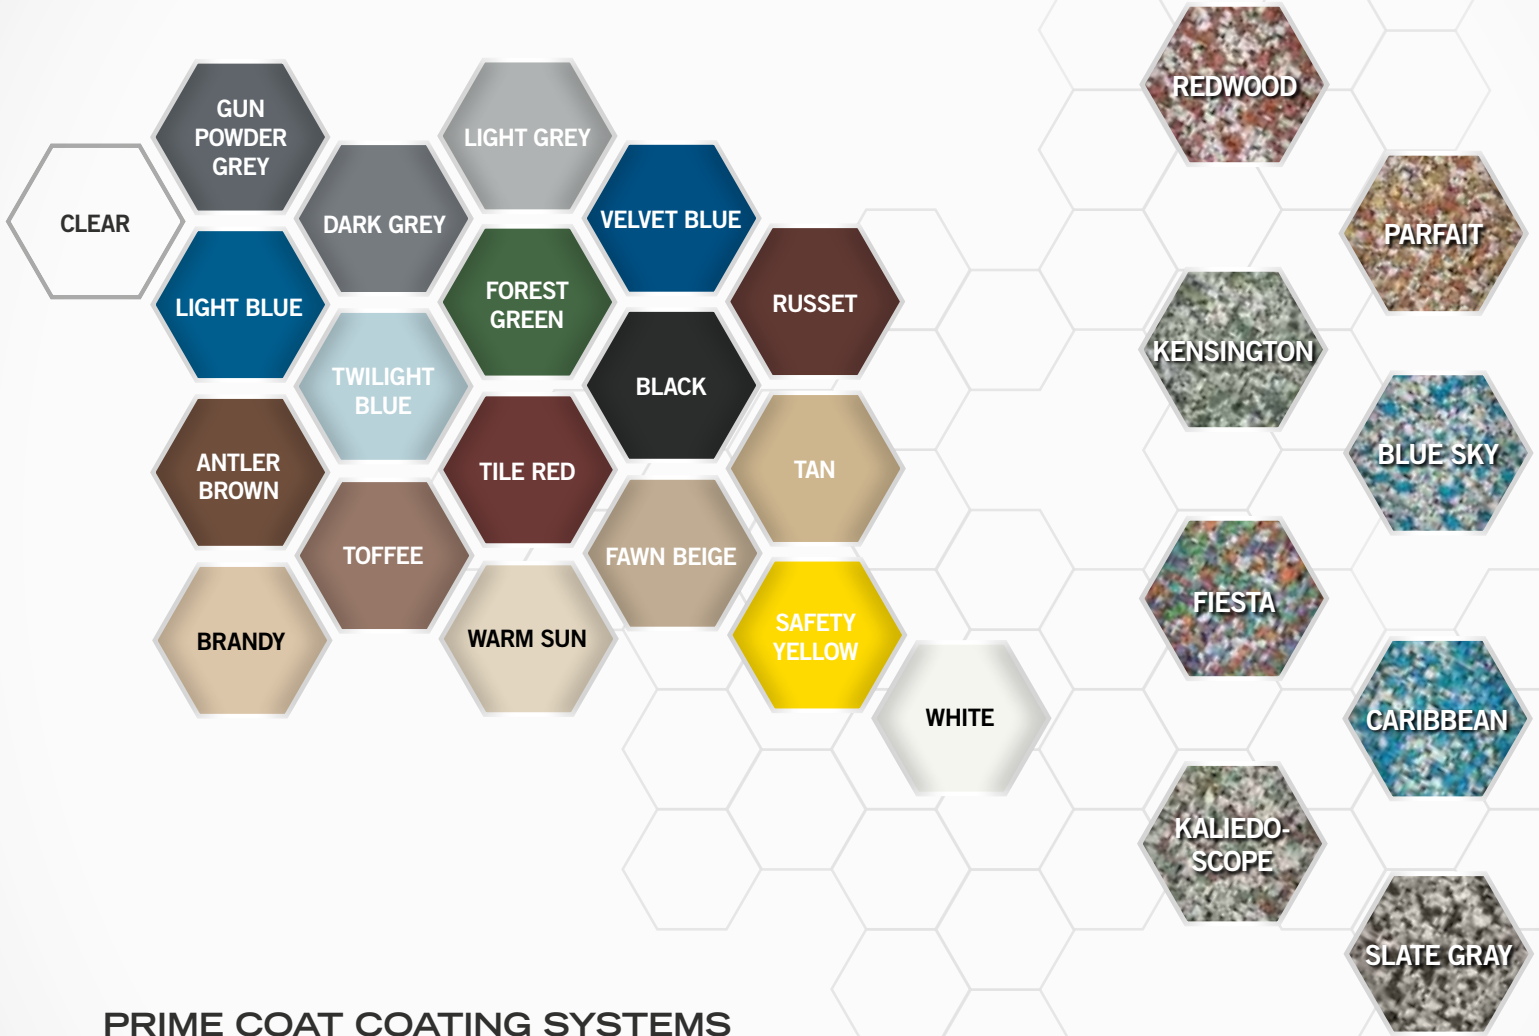

511/512

Waterborne polyaspartic urethane for greater UV, abrasion, and stain resistance
