4615

PRIME CAST 4615 is a multi-layered, aggregate filled, urethane elastomeric parking system. It is unmatched in toughness and provides ultimate protection to busy parking structures in cold weather climates.

COMMON APPLICATIONS

4615 is typically installed over clean prepared concrete where heavy vehicle traffic is expected and surface flexibility is required. Specific applications include, but are not limited to: Airport parking structures, large corporate parking structures and heavy duty traffic aisles.
